2009 Mall Street
Collinsville, IL 62234

Dear Nick:

In accordance with your directive of June 12, 1985, I wish to report the following. All oil in the ditch along the coking facility was cleaned from the ditch by refinery personnel.

A contract was then let to Petro-Chem Corporation to perform the remainder of the work. They removed all contaminated material from the ditch, starting in the Coker area and proceeding east to Highway 111. The ditch was then reshaped, seeded and straw blown on to hold the seed. We trust this will meet with your approval.

If any other information is desired, please advise.

Sincerely,

CLARK OIL & REFINING CORPORATION
